NEW RUN
Start a new extraction
Upload the method, study plan and any supplemental worksheets for one study. The tool prepares an Excel file for review before LabVantage import. Nothing is loaded into LabVantage. How it works
1. Name the run and add documents
Run name
Example Method A consumables – 16 Oct 2026
Suggested from your first file and today's date. You can change it later.
Drag files here

RUN · IN PROGRESS

Example Method A consumables – 16 Oct 2026

Started 16 Oct, 9:14 AM · 3 documents · Lookup lists v[n] · Reference data [date]

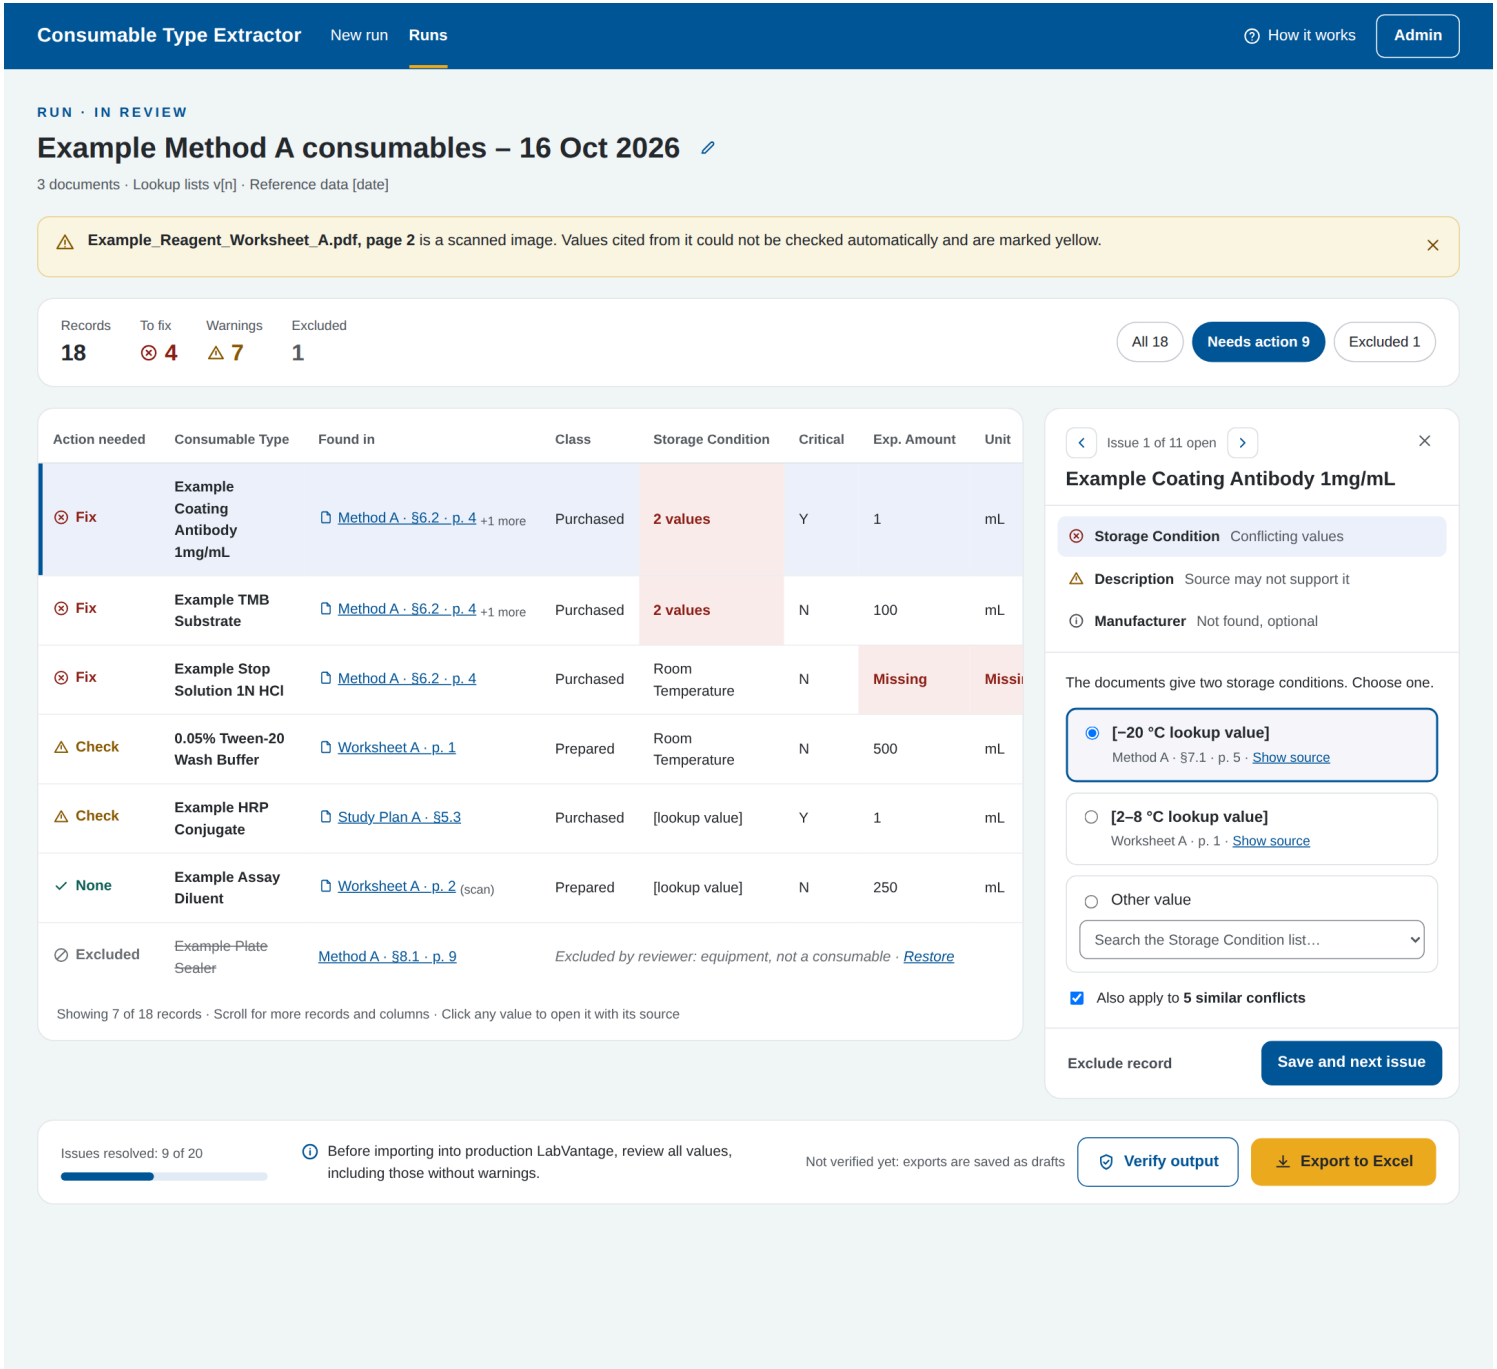

Back to runs

Working on your documents

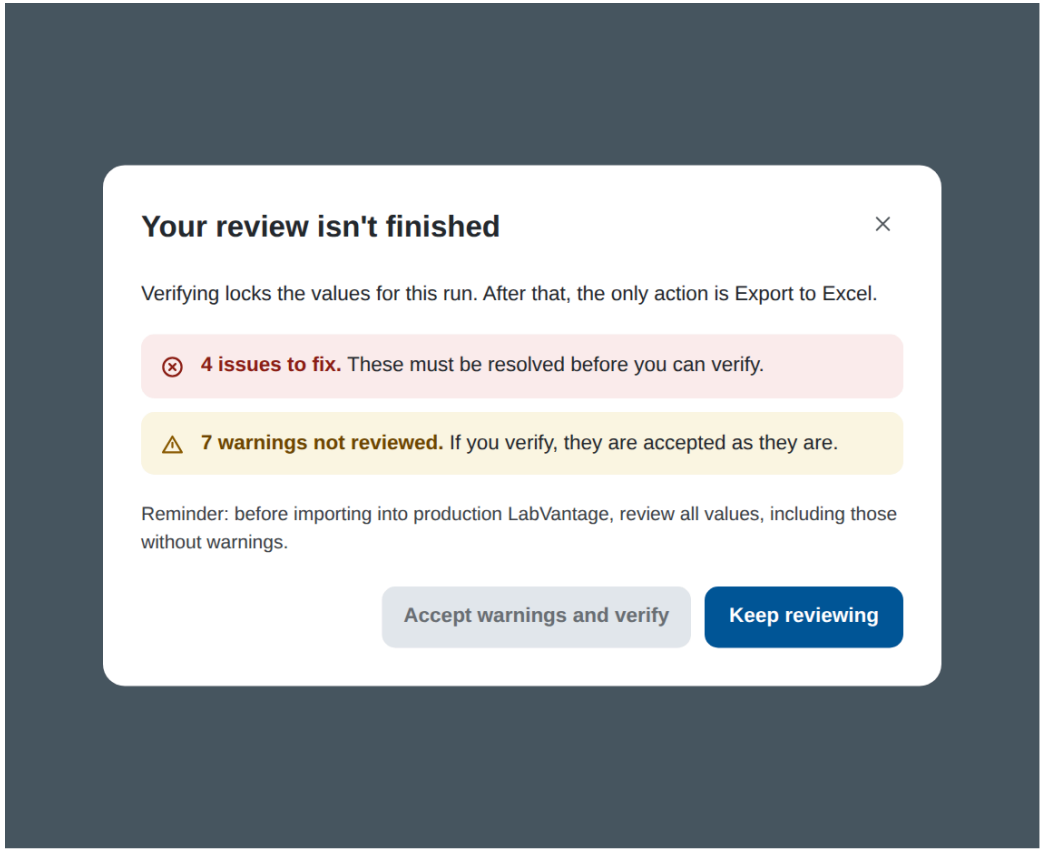

- **Reading documents**
  3 files read, 128 sections labeled
- **Extracting consumables**
  Finding Consumable Types and their fields
- **Checking citations**
- **Validating against the documents**
- **Formatting and final checks**
- **Preparing your preview**

You can leave this page. Your run is saved, and it will be under **Runs** when it's ready.

Review and resolve
